

Dear Dr Navin,

Thanks for your response. Although we had spoken to each other, there were too many coincidences which raised an eyebrow, so my detailed response.

The current website of IOA is shoddy to say the least even after 3 years in the making, functionality of which varies from your using a mobile to desktop to laptop. None of the hyperlinks except "Home" and "My Dashboard" (on logging in) works on the laptop.

The absolute shocker is that on reducing the page to 80% or full screen mode on Chrome/ Bing/ Opera/ Firefox browser on the laptop all the hyperlinks start working. As most members are using laptops the functionality of the website is compromised. The Menu option you mention is only visible on a mobile browser so if you were to download a page, the space (ROM) constraint in the mobiles very few would use it. Attachments 1 to 7)

When I log in on the website, it shows my mobile number as not verified but on the Dashboard it is shown as verified. (Attachments 8 & 9)

It was only after a lot of permutations and combinations that I achieved functionality of the website on my laptop (Core i7 HP Pavilion). So somewhere down the line all is not well in the website as a very few members are tech savvy like you. So now it is clear how you were able to access the latest minutes of the EC & GBM but others couldn't find it.

Seawind, who were appointed in your tenure as IT Chairman, had tried to blackmail IOA during the tenure of Prof Rajesh Malhotra's President-ship on expiry of their contract demanding a humongous amount of money. This was because the contract was one sided to favour Seawind. A Herculean effort by Prof Malhotra led to the domain being released but Seawind refused to hand over the intellectual data of IOA and membership database. *This is one of the major reasons for the well planned website project failing and you were of no help when it was asked for. This is also the root cause of the ongoing membership issues as the database had to be rebuilt from scratch.*

Now the critical issue regarding the minutes of the EC & GBM

1. The minutes once published can only be amended in the subsequent GBM during the ratification agenda. How was it done before?
2. Who had represented the amendments and why were the representations not attached in the 5th report like all other representations have been done?
3. The link to the original minutes were sent by an email blast on 8th February 2024 which still downloads the original minutes, unless the file has been changed to cover up.
4. The amended minutes were uploaded on ioaindia.org on 2nd July
5. The advance service of the 5th report was sent by an email to you, Dr Manish Dhawan, Manish Kumar & Associates and IOA House on the 2nd July 2024 at 1224 hrs.
6. Why were the amended minutes not shared with the members by a bulk email? Who is responsible for this faux pas? (Attachments 10 to 13)

You have mentioned that I was on the wrong page highlighting the High Court order page. But it was only after playing around with settings that it was discovered that the webpage had been hijacked on a purpose.

On the 2nd September, in my email I had said the ratification of the minutes of the GBM was not mentioned in the minutes. Then it was pointed out to me by a knowledgeable person that I was wrong and to read the 5th report. Despite being D 8 in the case the no report has been shared with me or my lawyer. So I obtained the report and highlighted the same on the 3rd September. You can check the metadata of the file.

Another coincidence is that the 7th report doesn't mention my multiple emails in reply to Dr Narayan Karne's emails sent on 2nd September but your email sent on 3rd September at 5.29 am is attached in the report submitted to the Hon'ble High Court on the 3rd September itself. My only email in the communication is in the trail email of Dr Swarnendu Samanta dated 2nd September at 1601 hours.

Now for critical issues which were delegated to you as Hony Secretary but you failed to do

Where are the minutes of the EGM held in Goa to amend the constitution?

Why were the minutes not presented in the GBM, shared with the members and put up on the IOA website?

As there are no records to minute the discussions on the details of the proposals, the proposer and seconder, how can the amended constitution be a legal document?

This issue has been raised in the past also.

As per the model by-laws the constitutional amendments should be ratified in an EGM at least 1 month after being passed. So what was the hurry to do the same in half an hour without minutes?

It is stated in the minutes of the GBM that constitutional amendments which were already discussed and passed in the EGM were tabled. What was tabled?

You were the Hony Secretary and it was constitutional duty to prepare the minutes before the amendments were approved. You along with the President Dr B Shivashankar have failed in your duty to have the minutes approved in a way laid down by law. (Attachment 14)

You have been a habitual offender in maintenance of minutes of IOA. In the GBM at Amritsar I had to raise a question of order during ratification of minutes of the EC in which the minutes of the previous meetings were never ratified. It was brushed aside saying that it is a technical issue and the minutes will be modified.

How can you add something which never happened in the meetings in the minutes?

Where are the corrected minutes and why were they not published? (Attachment 15)

While you claim your tenure as Hony. Secretary got over in December 2023 the order of the Hon'ble High Court of Delhi passed on the 4th September says that the elections of 2020 were vitiated and in light of the order passed on 20th October 2023 stand nullified. So you were removed from your post as a beneficiary of the 2020 election, so you should stop using the title of Past Hony Secretary/ Secretary General which is a blatant contempt of the court.

Selective leaks to suit one's purpose like selective amnesia never helps anybody and does more harm. Those who live in glass houses should not throw stones.
